Dr Hans W. Friederiszick is a Director and founder of E.CA Economics. Dr Friederiszick has extensive experience advising clients across the competition economics field (including cartels, mergers, and abuse of a dominant position and State aid cases) and has led teams of economists engaged in international antitrust investigations.

Our Team - E.CA Economics

In order to analyze how firms' political connections affect their corporate innovation, we start with the descriptive analysis on showing the distribution of firms' ownership of political connections in different years, and the results are presented in Table 2. The number of companies with political connections increases before 2009 and remains steady after 2009.
