The summary table gives us only an approximate estimate of delay distribution so it's good to complement the table by a corresponding fine-grained chart. Traditional histograms are not very suitable for comparing multiple sets of data. Box plots are too rough. Violin plots are better, but they look quite strange for non-statisticians.. There's a better way, which is also more good-looking ...

The will to power (German: der Wille zur Macht) is a prominent concept in the philosophy of Friedrich Nietzsche. The will to power describes what Nietzsche may have believed to be the main driving force in humans «achievement, ambition, and the striving to reach the highest possible position in life. These are all manifestations of the will to power; however, the concept was never ...
