

reproductive endocrinology and infertility pdf

Assisted reproductive technology (ART) are medical procedures used primarily to address infertility. It includes procedures such as in vitro fertilization. It may include intracytoplasmic sperm injection (ICSI), cryopreservation of gametes or embryos, and/or may involve the use of fertility medication. When used to address infertility, it may also be referred to as fertility treatment.

Special care for a special time – Institutes of Excellence

Infertility is a disease of the reproductive system defined by the failure to achieve a clinical pregnancy after 12 months or more of regular unprotected sexual intercourse (and there is no other reason, such as breastfeeding or postpartum amenorrhoea). Primary infertility is infertility in a couple who have never had a child.
